

REC'D JAN 25 2005

We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it.

A stringent sediment cleanup level is needed to protect human health, fish, wildlife and all of the beauty of the Bay.

Please:

PROTECT People who fish from the Bay and fish and wildlife that live there.

SUPPORT A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine.

OPPOSE Any proposal that leaves dangerous chemicals in the Bay.

REQUIRE Contamination be removed by barge, rail, or trucks passing around, not through Barrio L.

REC'D MAY 25 2004

9 Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- PROTEGER** Los pescadores de la bahía, los peces y la vida silvestre que viven ahí
APOYAR Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine
OPOSER Cualquier propuesta que deje químicas peligrosas en la bahía.
SOLICITAR Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Autorizo el uso de mi nombre en público como apoyo a la postura mencionada en la parte superior.

Dear Members of the San Diego Regional Water Quality Control Board:

WATER QUALITY

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left in place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

PROTECT

People who fish from the Bay and fish and wildlife who live there.

SUPPORT

A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards.

OPPOSE

Any proposal that leaves dangerous chemicals in the Bay.

REQUIRE

Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan.

I give permission to use my name in public to support the above position.

Action: Sediments Postcard

REC'D MAY 25 2004

9 Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

PROTEGER

Los pescadores de la bahía, los peces y la vida silvestre que viven ahí

APOYAR

Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine

OPONER

Cualquier propuesta que deje químicas peligrosas en la bahía.

SOLICITAR

Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Autorizo el uso de mi nombre en público como apoyo a la postura mencionada en la parte superior.

Dear Members of the San Diego Regional Water Quality Control Board:

WATER QUALITY

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

PROTECT

People who fish from the Bay and fish and wildlife who live there.

SUPPORT

A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards.

OPPOSE

Any proposal that leaves dangerous chemicals in the Bay. Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan.

I give permission to use my name in public to support the above position.

Action: Sediments Postcard

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left in place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment cleanup level is needed to protect human health, fish, wildlife and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------|--|
| PROTECT | People who fish from the Bay and fish and wildlife that live there. |
| SUPPORT | A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards. |
| OPPOSE | Any proposal that leaves dangerous chemicals in the Bay. |
| REQUIRE | Contamination be removed by barge, rail, or trucks passing around, not through Barrio Logan. |

Sincerely,

Name RUTH & SYLVIA ARNETT

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

REC'D FEB 27 2004

Favor de:

PROTEGER

Los pescadores de la bahía, los peces y la vida silvestre que viven ahí

APOYAR

Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine

OPONER

Cualquier propuesta que deje químicas peligrosas en la bahía.

SOLICITAR

Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up ~~LEVEL IS NEEDED~~ is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay. ~~CONTROL BOARD~~

Please:

**PROTECT
SUPPORT**

People who fish from the Bay and fish and wildlife who live there.
A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards.

**OPPOSE
REQUIRE**

Any proposal that leaves dangerous chemicals in the Bay.
Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan.

Sincerely,

Name Jessica Guerrero

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos benéficos de la bahía.

Favor de:

**PROTEGER
APOYAR**

Los pescadores de la bahía, los peces y la vida silvestre que viven ahí
Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine

**OPONER
SOLICITAR**

Cualquier propuesta que deje químicas peligrosas en la bahía.
Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Atentamente,

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------|--|
| PROTECT | People who fish from the Bay and fish and wildlife who live there. |
| SUPPORT | A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards. |
| OPPOSE | Any proposal that leaves dangerous chemicals in the Bay. |
| REQUIRE | Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan. |

Sincerely,

Name Xochitl Soyla

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- | | |
|------------------|---|
| PROTEGER | Los pescadores de la bahía, los peces y la vida silvestre que viven ahí |
| APOYAR | Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine |
| OPONER | Cualquier propuesta que deje químicas peligrosas en la bahía. |
| SOLICITAR | Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan. |

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------------------|--|

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------|--|
| PROTECT | People who fish from the Bay and fish and wildlife who live there. |
| SUPPORT | A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards. |
| OPPOSE | Any proposal that leaves dangerous chemicals in the Bay. |
| REQUIRE | Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan. |

Sincerely,

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- PROTEGER** Los pescadores de la bahía, los peces y la vida silvestre que viven ahí
 Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine
 Cualquier propuesta que deje químicas peligrosas en la bahía.
SOLICITAR Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- PROTEGER** Los pescadores de la bahía, los peces y la vida silvestre que viven ahí
 Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine
 Cualquier propuesta que deje químicas peligrosas en la bahía.
SOLICITAR Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Atentamente,

Environmental Health Coalition (619) 474-0220, 401 Mile of Cars Way, Suite 310, National City, CA 91950

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------|--|
| PROTECT | People who fish from the Bay and fish and wildlife who live there. |
| SUPPORT | A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards. |
| OPPOSE | Any proposal that leaves dangerous chemicals in the Bay. |
| REQUIRE | Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan. |

Sincerely,

Name

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- | | |
|------------------|---|
| PROTEGER | Los pescadores de la bahía, los peces y la vida silvestre que viven ahí |
| APOYAR | Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine |
| OPONER | Cualquier propuesta que deje químicas peligrosas en la bahía. |
| SOLICITAR | Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transporte no sea la comunidad de Barrio Logan. |

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- | | |
|----------------|--|
| PROTECT | People who fish from the Bay and fish and wildlife who live there. |
| SUPPORT | A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards. |
| OPPOSE | Any proposal that leaves dangerous chemicals in the Bay. |
| REQUIRE | Contamination be removed by barge, rail, or trucks passing around-not through, Barrio Logan. |

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment cleanup level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

**PROTECT
SUPPORT**

People who fish from the Bay and live there.
A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards.

**OPPOSE
REQUIRE**

Any proposal that leaves dangerous chemicals in the Bay.
Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan.

Sincerely,

Name Alexandra Hart
Address 3438 6th Ave #7

Estimados miembros de la Junta Regional para el Control de Calidad del Agua de San Diego:

Los sedimentos tóxicos amenazan la salud y la seguridad de la gente y a la vida silvestre que usa la Bahía de San Diego. Los sedimentos contaminados deben eliminarse no solo "taparse" o abandonarse a que amenacen futuras generaciones. Queremos una bahía sana para nadar y pescar y sana para la vida silvestre que depende de ella. Es necesario un nivel de saneamiento riguroso para proteger la salud humana, los peces, la vida silvestre y todos los usos beneficiosos de la bahía.

Favor de:

- PROTEGER** Los pescadores de la bahía, los peces y la vida silvestre que viven ahí
APOYAR Un nivel de saneamiento riguroso para los sedimentos en los astilleros de NASSCO y Southwest Marine
OPONER Cualquier propuesta que deje químicas peligrosas en la bahía.
SOLICITAR Que los sedimentos contaminados se acarreen por barcaza, ferrocarril, o por camiones cuya ruta de transportación no sea la comunidad de Barrio Logan.

Atentamente,

Dear Members of the San Diego Regional Water Quality Control Board,

Toxic sediments threaten the health and safety of people and wildlife using San Diego Bay. Contaminated sediments need to be permanently removed, not "capped" over or left-in-place to threaten future generations. We want a Bay that is safe for swimming and fishing and safe for the wildlife that depends on it. A stringent sediment clean up level is needed to protect human health, fish, wildlife, and all of the beneficial uses of the Bay.

Please:

- PROTECT** People who fish from the Bay and fish and wildlife who live there.
SUPPORT A stringent and protective cleanup level for sediments at NASSCO and Southwest Marine Shipyards.
OPOSE Any proposal that leaves dangerous chemicals in the Bay.
REQUIRE Contamination be removed by barge, rail, or trucks passing around, not through, Barrio Logan.

Sincerely,
